Margie Hopkins
4401 Milwaukee Street
Denver, CO 80216

Dear Ms. Hopkins:

The United States Environmental Protection Agency (EPA) has completed the soil removal and replacement at 4401 Milwaukee Street. This means that your property is no longer considered part of the VB/I-70 Superfund site. EPA does not believe that any further measures are necessary regarding lead and arsenic in your yard soil. You and your family are not at significant risk from lead and arsenic through ordinary contact with soil in your yard while playing, working, gardening, etc.

If you have any further questions or concerns about the EPA work performed at your property or about the VB/I-70 Superfund site work in general, please feel free to contact EPA Community Involvement Coordinators Jennifer Chergo at (303) 312-6601 or Patricia Courtney at (303) 312-6631.

Sincerely,

A handwritten signature in cursive script that reads "Jennifer Chergo".

Jennifer Chergo
EPA Community Involvement Coordinator
